About Us

ABC TOOLS MFG. CORP. was established in Qingdao, China in 2006. We currently have three factories and a total plant area reaching 35,000 square meters.

Over 300 employees and 37 production lines provide assurance for on-time delivery. Our business team is made up of twenty staff members to always provide first-class customer service.

The Inspection team tests and inspects each order before delivery.

R&D teams will solve all technical and design challenges for our customers.

With the efforts of the whole company, our production capacity was over 2,500,000 units in 2022.

As of now we are ISO9001 BSCI and Wal-Mart factory audit compliant.

Through our diligent attention to quality, design, and efficiency, we can assist our customers in capturing their desired market.

Vision : To be world' s top-tier shelving supplier.

Mission : Value creation for clients and facilitate employee talent realization.

Value : Sincerity Happiness Innovation Prudence.

Our Certificates

Our Qingdao factory has been BSCI approved. Many of our shelving products for Europe have obtained the GS certificate as well, specifically for the European market. In terms of ladder production, our products have passed the authoritative certification of CSA, ANSI and have been sold to North America, Canada, Australia, and other countries and regions.

25+ Years' Experience

Helping customers improve their competitiveness.

Advanced Production Technology

ABC adopts advanced production technology. The powder spraying facility adopts the gas machine imported from Italy. It is energy-saving and environmentally friendly, ensuring shelving's color is saturated and in good quality. The roller forming line makes sure stable production. Moreover, the punching mold can guarantee the production speed increases two to three times, which makes it possible to deliver the standard product with a short time.

Our Factory

Through 17 years of development, we have built a production and processing workshop covering 20,000 square meters. Meanwhile, a standard factory building covering 15,000 square meters was built up and will be put into use this year.
